Report on changes in Policy or Practice that were implemented Field hockey began the season utilizing a new website that functioned on coaches input . The website compiled individual statistics, ratings for officials, wins and losses for each team, after each game. The website also provided the section with all the necessary information to seed all the teams for sectional and post season play, therefore eliminating the need for a seed meeting. All the coaches were very helpful in submitting their school's information in a timely manner which resulted in a very successful first season.

Problems encountered/ concerns: N/A

Number of Participating schools: 24
